**Itemized Cost Summary**

Daily Rental (₹350 × 1 day) ₹350

Refundable Security Deposit ₹500

Platform Conveniencing Fee ₹50

GST / Tax (18%) ₹72

**Total Amount Payable ₹972**

No back option from book now page  
just have to close the app for this.

- Also if we are adding any new place in explore goa page .. it is not reflecting the next time you log in(always asks to create an account)
- Our data is not getting saved anywhere to recognise us the next time we login
- Also imp thing as per ma'am we have to show our app impressions on the app called

mix panel so for that we have to connect our app with mix panel. We don't know how to do it. May be a direct easy task but please check and let us know bcz this is very imp criteria for evaluation.

Still the issue with back button in. Phone I m not able to back it up bcz it's on very top n cannot be clicked bcz i m already touching the screen n scrolling down

Problem is the placement of back button.

As it is non accessible to touch and not visible on screen directly.

Here can we add more categories. Or custom

Bcz as i m adding fort i cannot actual complete it bcz of no fort option.

And people will be adding things that r diff category from the list.
